Hi Barbara/Andrew,

Attached is the revised formaldehyde genotoxicity section. Sury updated the new studies in the table, and I have incorporated the text reflecting some of the updated studies in the document. Please let us know if there is anything else that need to be done.

Thank you
nagu

Thanks for letting us know. I also need to update some articles in the human section but this should not hold up your work. When I do that, we can decide if the synthesis needs to be edited but I don't think it will.
